News On AIR | जुलाई 29, 2026 8:00 अपराह्न

नई दिल्ली में 9वें इंडिया मेडिकल डिवाइस 2026 का आयोजन करेगा औषधीय विभाग

रसायन और उर्वरक मंत्रालय

सत्यमेव जयते

औषधीय विभाग, भारतीय वाणिज्य एवं उद्योग महासंघ (फिक्की) के सहयोग से, 7 और 8 अगस्त को नई दिल्ली में 9वें इंडिया मेडिकल डिवाइस 2026 का आयोजन करेगा। रसायन और उर्वरक मंत्रालय ने बताया कि इस सम्मेलन का विषय है "विकसित भारत की ओर: गुणवत्तापूर्ण चिकित्सा उपकरणों के वैश्विक केंद्र के रूप में भारत को आगे बढ़ाना"। रसायन और उर्वरक मंत्री जगत प्रकाश नड्डा 8 अगस्त को "आत्मनिर्भर मेडटेक: विकसित भारत की ओर भारत की यात्रा को गति देना" विषय पर सम्मेलन को संबोधित करेंगे। रसायन और उर्वरक राज्य मंत्री अनुप्राय पटेल भी सम्मेलन को संबोधित करेंगी।

दो दिन के इस कार्यक्रम में नीति निर्माता, नियामक, उद्योगपति, स्वास्थ्य संस्थान, शिक्षाविद, नवप्रवर्तक और वैश्विक हितधारक भारत के तेजी से बढ़ते चिकित्सा उपकरण और मेडटेक क्षेत्र के भविष्य की रूपरेखा पर विचार-विमर्श करने के लिए एक साथ आएंगे। इसका उद्देश्य भारत के चिकित्सा उपकरण पाटिस्थितिकी तंत्र के विकास को गति देने वाली उभरती प्रौद्योगिकियों और स्टार्टअप नवाचारों को प्रदर्शित करते हुए निवेश, प्रौद्योगिकी सहयोग, नवाचार और संचालन वैश्विक प्रथाओं को अपनाने को बढ़ावा देना भी है। इस कार्यक्रम में क्षेत्र के भविष्य को आकार देने वाले प्रमुख मुद्दों पर उच्च स्तरीय विचार-विमर्श होगा। इसमें प्रमुख घरेलू और अंतर्राष्ट्रीय हितधारकों की भागीदारी होगी।

मंत्रालय ने बताया कि भारत का चिकित्सा उपकरण उद्योग स्वास्थ्य सेवा क्षेत्र के सबसे तेजी से बढ़ते क्षेत्रों में से एक के रूप में उभर रहा है। चिकित्सा उपकरण उद्योग का वर्तमान मूल्य 15 अरब डॉलर से अधिक है। मंत्रालय ने कहा कि उद्योग के विकास को राष्ट्रीय चिकित्सा उपकरण नीति 2023 और प्रोत्साहन आधारित योजना सहित कई परिवर्तनकारी नीतिगत पहलों से समर्थन मिला है।

India Medical Device 2026 to spotlight innovation, self-reliance and global competitiveness

Union health minister JP Nadda to outline government's MedTech vision at DoP and FICCI's flagship conference on August 7-8 in New Delhi

By IPP Bureau | July 30, 2026

The Department of Pharmaceuticals (DoP), Ministry of Chemicals & Fertilizers, in collaboration with the Federation of Indian Chambers of Commerce & Industry (FICCI), will organise the 9th edition of India Medical Device 2026 on August 7-8 at Vigyan Bhawan, New Delhi.

Themed "Towards Viksit Bharat: Advancing India as a Global Hub for Quality Medical Devices", the conference will bring together policymakers, regulators, industry leaders, healthcare institutions, academia, innovators and global stakeholders to discuss the future of India's rapidly growing medical devices sector.

Union Minister for Chemicals and Fertilizers Jagat Prakash Nadda will address the conference on "Atmanirbhar MedTech: Accelerating India's Journey towards Viksit Bharat" on August 8, highlighting the government's vision for building a globally competitive and innovation-driven medical devices ecosystem.

Union Minister of State Anupriya Patel, Department of Pharmaceuticals Secretary Manoj Joshi, Health Secretary Punya Sallia Srivastava, Drugs Controller General of India Dr. Rajeev Singh Raghuvanshi, NITI Aayog Member (Health) Dr. M. Srinivas, along with senior government officials, CEOs, industry experts, start-ups and academic leaders, are expected to participate.

The two-day conference will focus on key priorities for the MedTech sector, including localisation of medical device component manufacturing, strengthening testing infrastructure and quality assurance, advancing artificial intelligence and Software as a Medical Device (SaMD), improving clinical evidence generation and regulatory pathways.

India's medical devices industry, currently valued at over USD 15 billion, is among the fastest-growing segments of the healthcare sector.

The government said its growth has been driven by initiatives such as the National Medical Devices Policy 2023, the Production Linked Incentive (PLI) Scheme, establishment of Medical Device Parks, stronger regulatory frameworks, and continued emphasis on research, innovation and quality manufacturing.

Press Trust of India
@PTI_News

The 9th edition of India Medical Device 2026 will be held on August 7-8 at Vigyan Bhawan, New Delhi. Union Minister J. P. Nadda will address the event on "Atmanirbhar MedTech: Accelerating India's Journey towards Viksit Bharat" on August 8, according to a press release issued by the Department of Pharmaceuticals, Ministry of Chemicals & Fertilizers.

The ministry said the two-day conference will bring together policymakers, regulators, industry leaders, healthcare institutions, academia, innovators and global stakeholders. Deliberations will cover localisation of medical device component manufacturing, testing and quality assurance, AI and Software as a Medical Device (SaMD), clinical evidence and regulatory pathways, exports, and reimbursement frameworks, among other issues.

According to the release, India's medical devices industry is currently valued at over USD 15 billion and is among the fastest-growing segments of the healthcare sector. India Medical Device 2026 aims to promote investment, technology collaborations, innovation and global best practices while strengthening India's position as a global MedTech destination aligned with the vision of Viksit Bharat@2047.

The banner for the 9th edition of India Medical Device 2026 features a blue and green background with a stethoscope on the left and a medical scanner on the right. The central text reads "9th edition of INDIA MEDICAL DEVICE 2026" in large, bold letters. Below this, it states "TOWARDS VIKSIT BHARAT: ADVANCING INDIA AS A GLOBAL HUB FOR QUALITY MEDICAL DEVICES". A QR code is prominently displayed with the text "REGISTER NOW" above it. At the bottom, the dates "7 - 8 August, 2026" and the location "Vigyan Bhawan, New Delhi" are provided. Logos for the Department of Pharmaceuticals and FICCI 100 are also visible.

7-8 AUGUST VIGYAN BHAWAN, 2026

प्रश्न - 7 से 8 अगस्त, 2026 को 9वां इंडिया मेडिकल डिवाइस 2026 का आयोजन कहाँ किया जाएगा?

(a) नई दिल्ली (b) हैदराबाद
(c) मुंबई (d) लखनऊ

उत्तर - (a) समय और कैलेंडर

व्याख्यात्मक उत्तर

7 से 8 अगस्त, 2026 को नई दिल्ली के **विज्ञान भवन** में 9वां इंडिया मेडिकल डिवाइस 2026 का आयोजन नई दिल्ली में किया जाएगा।

इस सम्मेलन का विषय है "विकसित भारत की ओर: गुणवत्तापूर्ण चिकित्सा उपकरणों के वैश्विक केंद्र के रूप में भारत को आगे बढ़ाना"।

इसका उद्देश्य भारत के चिकित्सा उपकरण पारिस्थितिकी तंत्र के विकास को गति देने वाली उभरती प्रौद्योगिकियों और स्टार्टअप नवाचारों को प्रदर्शित करते हुए निवेश, प्रौद्योगिकी सहयोग, नवाचार और सर्वोत्तम वैश्विक प्रथाओं को अपनाने को बढ़ावा देना भी है।

इस कार्यक्रम में नीति निर्माता, नियामक, उद्योगपति, स्वास्थ्य संस्थान, शिक्षाविद, नवप्रवर्तक और वैश्विक हितधारक भारत के तेजी से बढ़ते चिकित्सा उपकरण और मेडटेक क्षेत्र के भविष्य की रूपरेखा पर विचार-विमर्श करने के लिए एक साथ आएंगे।

Union minister J P Nadda to address India Medical Device 2026 to be held on 7th & 8th August

Our Bureau, Mumbai
Tuesday, August 4, 2026, 09:00 Hrs [IST]

The Department of Pharmaceuticals, Ministry of Chemicals & Fertilizers, Government of India in collaboration with the Federation of Indian Chambers of Commerce & Industry (FICCI), is set to organise the 9th edition of India Medical Device 2026 on 7th and 8th August, 2026, at Vigyan Bhawan, New Delhi.

The flagship event, themed "Towards Viksit Bharat: Advancing India as a Global Hub for Quality Medical Devices" will bring together policymakers, regulators, industry leaders, healthcare institutions, academia, innovators and global stakeholders to deliberate on the future roadmap of India's rapidly expanding medical devices and MedTech sector.

Union minister of chemical and fertilizers, Jagat Prakash Nadda, will address the event on "Atmanirbhar MedTech: Accelerating India's Journey towards Viksit Bharat" on 8 August 2026, outlining the Government's vision for building a globally competitive and innovation-driven medical devices ecosystem. Union minister of state for chemicals and fertilizers, Anupriya Patel, will also address the conference. Manoj Joshi, secretary, Department of Pharmaceuticals, Punya Salila Srivastava, secretary, ministry of health & family welfare, Dr Rajeev Singh Raghuvanshi, Drugs Controller General of India (DCGI), Dr M Srinivas, Member (Health), NITI Aayog, senior government officials, policymakers, CEOs of leading medical device companies, industry experts, start-ups and representatives from healthcare institutions and academia will participate in the two-day conference.

India Medical Device 2026 will feature high-level deliberations on key issues shaping the future of the sector, including localisation of medical device component manufacturing, strengthening testing infrastructure and quality assurance, building technology leadership in high-impact and high-volume medical devices, leveraging artificial intelligence (AI) and Software as a Medical Device (SaMD), enhancing clinical evidence generation and regulatory pathways, expanding India's medical device exports, strengthening service and maintenance ecosystems, and exploring reimbursement frameworks for innovative therapies in support of Universal Health Coverage (UHC).

'Medical device start-ups, large players can partner for mutual benefit, market access'

Ankita Upadhyay
New Delhi

Calling India's medical device start-up ecosystem vibrant but commercially fragile, Pharma Secretary Manoj Joshi on Thursday said many start-ups are struggling to take their innovations to market despite receiving government support, and urged greater collaboration between established industry players and young companies to help

commercialise new technologies.

Addressing the inaugural session of the 9th India Medical Device 2026 in New Delhi, Joshi said India had witnessed a surge in medical device start-ups, particularly in the in-vitro diagnostics (IVD) segment. "We have a large number of start-ups, more in the IVD side, trying to make easy small devices which can be used at the PHC, CHC and village level."

Joshi said the govern-

ment's Promotion of Research and Innovation in Pharma-MedTech (PRIP) scheme had received around 750 applications, of which nearly 500 came from medical device start-ups, reflecting the sector's growing innovation pipeline. However, he questioned whether the ecosystem currently had enough market opportunities to sustain such a large number of start-ups.

Joshi proposed partnerships between established medical device manufactur-

ers and start-ups. Large industries can also take advantage of the product development which start-ups have done and buy those technologies.

He noted that such acquisitions and collaborations are common in the pharmaceutical sector but have not yet become a feature of the medical devices industry.

He urged FICCI to devote greater attention to strengthening market linkages for start-ups.

India must build export-oriented medtech industry

PIONEER NEWS SERVICE
■ New Delhi

India must move beyond import substitution approach in the medical devices sector and build an export-oriented industry that serves global markets, a senior Government official said on Friday.

For this, the country needs to strengthen its domestic component manufacturing and deepen value addition, Secretary, Department of Pharmaceuticals, Manoj Joshi, said.

The medical devices sector needs to be viewed from both healthcare and industry perspective, he said addressing the 'India Medical

Device 2026' event, organised by industry body FICCI in the capital.

"India must move beyond the import substitution approach and build an export-oriented industry that serves global markets. While the Indian medical devices market is valued at around \$16 billion, the global market exceeds \$600 billion, offering immense opportunities for Indian manufacturers," he noted.

To realise this potential, Joshi said, "It is essential to strengthen domestic component manufacturing, deepen value addition, facilitate seamless cross-border movement of components and products, integrate India

into global value chains, and foster stronger partnerships between startups and large industries so that innovations can successfully reach the market." While healthcare providers focus on access to quality devices

irrespective of their origin, domestic manufacturing is critical to generate employment, strengthen industry capabilities, and ensure supply chain resilience especially during global disruptions, Joshi noted.

2047 तक 250 अरब डॉलर का होगा मेडिकल डिवाइस बाजार

नई दिल्ली, 7 अगस्त (ब्यूरो):
फिक्की-डीयूए कंसल्टिंग की व्हाइट
पेपर रिपोर्ट के मुताबिक, देश का
मेडिकल डिवाइस बाजार मौजूदा
करीब 14 अरब डॉलर से बढ़कर
2047 तक 250 अरब डॉलर तक
पहुंच सकता है। रिपोर्ट को नई दिल्ली
में आयोजित 9वें इंडिया मेडिकल
डिवाइस 2026 के दौरान जारी किया
गया। इस दशक में बाजार के 30-
50 अरब डॉलर तक पहुंचने का
अनुमान है। बढ़ती स्वास्थ्य सेवाओं
की मांग, अत्याधुनिक चिकित्सा
तकनीक, घरेलू विनिर्माण को सरकारी
समर्थन और भारत को ग्लोबल मेडटेक
हब बनाने की कोशिश इसके प्रमुख
कारक होंगे।

India

India has outlined a set of priorities to accelerate the responsible use of artificial intelligence (AI) in healthcare and medical technology, following the release of a new knowledge paper by the Department of Pharmaceuticals. The report, launched by Union Minister for Chemicals and Fertilisers and Health and Family Welfare JP Nadda at the India Medical Device 2026 conference in New Delhi, examines how AI could support diagnostics, clinical decision-making and operational efficiency while also identifying the policy and regulatory changes needed for wider adoption. Details of the announcement were published through the [Press Information Bureau](#).

Knowledge paper focuses on scaling AI-enabled healthcare

Union Minister JP Nadda released the AI-focused medtech knowledge paper during the India Medical

The publication, titled *AI in MedTech: Revolutionising Healthcare Through Artificial Intelligence*, was prepared jointly by the Department of Pharmaceuticals, an industry body and a consulting organisation. It assesses the current state of India's AI-enabled medtech ecosystem and sets out strategic actions intended to support responsible deployment across the healthcare system.

The report notes that India has already established important foundations through initiatives including the [Ayushman Bharat Digital Mission](#), the IndiaAI Mission and the National Medical Devices Policy 2023. However, it argues that moving AI applications from pilot projects to routine clinical use remains a significant challenge.

The two-day 9th edition of India Medical Device 2026 kicked off today at Vigyan Bhawan, New Delhi, bringing together policymakers, regulators, industry leaders, innovators and other stakeholders to advance India's medical devices sector and strengthen its position as a global hub for quality medical devices. The conference is being organised by the Department of Pharmaceuticals, Ministry of Chemicals and Fertilisers, Government of India, in association with the Federation of Indian Chambers of Commerce and Industry (FICCI), on the theme 'Towards Viksit Bharat: Advancing India as a Global Hub for Quality Medical Devices'.

Strengthening Domestic Manufacturing and Export Potential

Addressing the inaugural session, Manoj Joshi, Secretary, Department of Pharmaceuticals, emphasised that the medical devices sector needs to be viewed from both a healthcare and industry perspective. While healthcare providers focus on access to quality devices irrespective of their origin, domestic manufacturing is critical for generating employment, strengthening industry capabilities, and ensuring supply chain resilience, especially during global disruptions," he added.

New Delhi, Aug 7 (IANS) India's medical device industry is expected to emerge as a global powerhouse with a projected market size of \$250 billion by 2047, according to a FICCI-DUA report released on Friday.

The report presents a comprehensive roadmap for creating a safe, transparent and sustainable medical equipment maintenance ecosystem.

The White Paper released during the inaugural session of the 'India Medical Device 2026', organised by the Department of Pharmaceuticals in association with FICCI here says that India's medical device sector, currently valued at around \$14 billion, is projected to reach \$30-50 billion within this decade, and likely to reach \$250 billion by 2047.

Engineering & Technology

During the inaugural session of the ninth edition of "India Medical Device 2026," organized by the Department of Pharmaceuticals in collaboration with FICCI, the white paper stated that the current market value of India's medical device sector, estimated at approximately \$14 billion, could grow to between \$30 billion and \$50 billion by the end of this decade. By 2047, the industry is expected to reach a staggering \$250 billion.

चिकित्सा उपकरण के लिए वैश्विक स्तर पर प्रतिस्पर्धी विनिर्माण क्षमता विकसित करने की जरूरत: जोशी

नयी दिल्ली, 07 अगस्त (वार्ता) औषधि विभाग के सचिव मनोज जोशी ने शुक्रवार को कहा कि घरेलू चिकित्सा उपकरण उद्योग को गुणवत्ता मानकों में निरंतर सुधार करते हुए वैश्विक स्तर पर प्रतिस्पर्धी विनिर्माण क्षमता विकसित करने की जरूरत है।

राष्ट्रीय राजधानी स्थित विज्ञान भवन में दो दिवसीय सम्मेलन इंडिया मेडिकल डिवाइस 2026 के उद्घाटन सत्र को संबोधित करते हुए श्री जोशी ने कहा कि चिकित्सा उपकरणों के स्थानीय विनिर्माण में उल्लेखनीय प्रगति हुई है, विशेष रूप से कंज्यूमेबल्स, डिस्पोजेबल्स तथा डायग्नोस्टिक एवं इमेजिंग प्रणालियों सहित उच्च-स्तरीय उपकरणों की असेंबली में। अब आवश्यकता घरेलू मूल्य संवर्धन को बढ़ाने, कंपोनेंट विनिर्माण को सुदृढ़ करने, उन्नत चिकित्सा प्रौद्योगिकियों में नवाचार को प्रोत्साहित करने तथा गुणवत्ता मानकों में निरंतर सुधार करने की है, ताकि भारत वैश्विक स्तर पर प्रतिस्पर्धी विनिर्माण क्षमता विकसित कर सके।

Published Date: August 7, 2026 6:40 pm IST

नयी दिल्ली, सात अगस्त (भाषा) भारत को चिकित्सा उपकरण क्षेत्र में केवल आयात पर निर्भरता कम करने की रणनीति से आगे बढ़ते हुए वैश्विक बाजारों की जरूरतों को पूरा करने वाला निर्यात आधारित उद्योग विकसित करना चाहिए। एक वरिष्ठ [सरकारी](#) अधिकारी ने शुक्रवार को यह बात कही। [इतिहास](#)

औषधि विभाग के सचिव मनोज जोशी ने कहा कि इसके लिए देश को घरेलू स्तर पर उपकरण [विनिर्माण](#) को मजबूत करना होगा और उत्पादों में मूल्यवर्धन बढ़ाना होगा।

राष्ट्रीय राजधानी में उद्योग मंडल फिक्की द्वारा आयोजित 'इंडिया मेडिकल डिवाइस 2026' कार्यक्रम को संबोधित करते हुए जोशी ने कहा कि चिकित्सा उपकरण क्षेत्र को स्वास्थ्य सेवा और उद्योग, दोनों नजरिये से देखना होगा।

Join Our Whatsapp Group

उन्होंने कहा, “भारत को आयात प्रतिस्थापन की सोच से आगे बढ़कर ऐसा निर्यात आधारित उद्योग बनाना होगा, जो वैश्विक बाजारों की जरूरतों को पूरा कर सके। भारतीय चिकित्सा उपकरण बाजार का आकार करीब 16 अरब डॉलर है, जबकि वैश्विक बाजार 600 अरब डॉलर से अधिक का है। ऐसे में भारतीय विनिर्माताओं के लिए कई अवसर मौजूद हैं।”

नई दिल्ली: 'इंडिया मेडिकल डिवाइस 2026' का दो दिवसीय 9वां संस्करण आज नई दिल्ली के विज्ञान भवन में शुरू हुआ। इसमें नीति निर्माता, रेगुलेटर, इंडस्ट्री लीडर्स, इनोवेटर्स और अन्य स्टेकहोल्डर्स एक साथ आए हैं ताकि भारत के मेडिकल डिवाइस सेक्टर को आगे बढ़ाया जा सके और क्वालिटी मेडिकल डिवाइस के लिए इसे ग्लोबल हब के तौर पर मजबूत किया जा सके। यह कॉन्फ्रेंस भारत सरकार के रसायन और उर्वरक मंत्रालय के फार्मास्यूटिकल्स विभाग द्वारा 'फेडरेशन ऑफ इंडियन चैंबर्स ऑफ कॉमर्स एंड इंडस्ट्री' (FICCI) के सहयोग से आयोजित की जा रही है। इसका विषय है - 'विकसित भारत की ओर: क्वालिटी मेडिकल डिवाइस के लिए भारत को ग्लोबल हब के तौर पर आगे बढ़ाना'। **शहर और स्थानीय मार्गदर्शिका**

Also Read - ओडिशा DGP चयन पर सुप्रीम कोर्ट की रोक, UPSC को 18 अगस्त तक फैसला टालने का निर्देश

उद्घाटन सत्र को संबोधित करते हुए, फार्मास्यूटिकल्स विभाग के सचिव मनोज जोशी ने इस बात पर ज़ोर दिया कि मेडिकल डिवाइस सेक्टर को हेल्थकेयर और इंडस्ट्री, दोनों नज़रियों से देखने की ज़रूरत है। उन्होंने कहा, "जहां हेल्थकेयर प्रोवाइडर्स का ध्यान क्वालिटी डिवाइस की उपलब्धता पर होता है - चाहे वे कहीं भी बने हों - वहीं रोज़गार पैदा करने, इंडस्ट्री की क्षमताओं को मजबूत करने और सप्लाई चेन को मजबूत बनाए रखने (खासकर ग्लोबल रुकावटों के दौरान) के लिए घरेलू मैनुफैक्चरिंग बहुत ज़रूरी है।"

Delhi: **Manoj Joshi, Secretary, Department of Pharmaceuticals, Ministry of Chemicals & Fertilizers, Government of India,** says, "In the medical devices sector, two aspects are important. One is creating a strong manufacturing ecosystem, which includes component systems, easier imports, infrastructure support and product development. The government is working with the industry to provide support and facilitate manufacturing. The second aspect is the regulatory framework, so that it becomes easier to manufacture medical devices in India, particularly for companies producing quality products. The focus is on preventing sub-standard products, facilitating quality upgrades and making the introduction of new products faster and easier. Similarly, efforts are being made to simplify the cross-border movement of components and strengthen the overall ecosystem. The government is working in both these directions, and this two-day conference will discuss each of these aspects in detail."
